

Metacat - Bug #3781

Add admin user/password configuration to esa skin configuration

01/27/2009 03:31 PM - Michael Daigle

Status:	Resolved	Start date:	01/27/2009
Priority:	Normal	Due date:	
Assignee:	Michael Daigle	% Done:	0%

Target version:	1.9	Spent time:	0.00 hour
Bugzilla-Id:	3781		
Description			
ESA uses and admin account when datasets are registered. This needs to be configurable in the esa skin config. This is especially since the admin password cannot be hard coded.			

History

#1 - 01/29/2009 09:13 AM - Michael Daigle

Added user/password configuration. Also removed moderator configuration from skin since we currently use the auth.moderator

#2 - 03/27/2013 02:24 PM - Redmine Admin

Original Bugzilla ID was 3781
