FIRST - Bug #3820

Dropping image into common instructions prompt shows image drop targets for whole question

02/17/2009 02:07 PM - Ryan McFall

Description

It's likely this is because it calls setImagePanelVisible (true) which works on the whole hierarchy; should probably just set visibility manually. Might be tough to differentiate this case ...

History

#1 - 05/11/2009 07:09 AM - Ryan McFall

Changes in the way dropping images works has made this bug irrelevant; there is
no longer a way to show/hide the image drop targets because they are
automatically shown/hidden when an image drag/drop begin. (Resubmit after fire)
