

Metacat - Bug #3826

Remove jdbc properties from build.properties if not needed

02/17/2009 04:32 PM - Michael Daigle

Status:	Resolved	Start date:	02/17/2009
Priority:	Normal	Due date:	
Assignee:	Michael Daigle	% Done:	0%

Target version:	1.9	Spent time:	0.00 hour
Bugzilla-Id:	3826		
Description			
Per Duane Costa:			
In build.properties:			
The 'database' property and all the 'jdbc' properties are still in the build.properties file but they are all commented-out. Is there a reason they still need to be present in the build.properties file? It might be less confusing to Metacat administrators if these properties could be removed from the file prior to releasing the distribution.			

History

#1 - 02/18/2009 04:37 PM - Michael Daigle

Removed database properties from build.properties.
