#### Description

Per Matt

Go to NCEAS skin (<http://knb.ecoinformatics.org/knb/style/skins/nceas/>) then search for 'soil' which will list bowdish.251.9 as one result then click on 'Edit' button, which generates an error from register-dataset.cgi:

(The server encountered an internal error or misconfiguration and was unable to complete your request.) The error\_log says:  
[Wed Mar 11 00:24:18 2009] [error] [client 206.174.86.39] Premature end of script headers: register-dataset.cgi, referer:

<http://knb.ecoinformatics.org/knb/metacat>

[Wed Mar 11 00:26:20 2009] [error] [client 206.174.86.39] Can't locate Config/Properties.pm in @INC

which I interpret to mean that register-dataset.cgi is missing at least Config::Properties

#### History

##### #1 - 03/11/2009 01:22 PM - Michael Daigle

Completed the perl install instructions for 1.9.0 which included the Config::Properties module.

Works now.
