

Metacat - Bug #3929

Multiple keywords aren't processed by the edit action properly

04/01/2009 05:00 PM - Shaun Walbridge

| Description | | | |
| There's been a regression since 1.8.1 and editing multiple keywords no longer works (originally part of #3319). It looks like the token replacement branch never was updated with the fix applied in 1.8.1, just need to grab the relevant code and re-add it to trunk. | | | |
