Bugzilla-Id:	395			

Description

The second screen of the profile wizard does not have a default focus of the cursor, causing the user to have to click on the username box instead of just hitting the tab key. ideally, the username text box should have the default focus so that the user does not have to do anything to start typing there.

History

#1 - 03/29/2002 11:27 AM - Dan Higgins

set default focus to the username; also added "unaffiliated" to the list of organizations.
