

FIRST - Bug #3965

Inappropriate error message when the document is a scanned PDF

04/07/2009 08:19 PM - Jay Lee

Status:	Resolved	Start date:	04/07/2009
Priority:	Normal	Due date:	
Assignee:	Ryan McFall	% Done:	0%
Category:	parser	Estimated time:	0.00 hour
Target version:	client-prototype	Spent time:	0.00 hour
Bugzilla-Id:	3965		
Description			
after it showed the error message "the document being parsed does not seem to have question number. tis may result in faulty recognition! do you want to continue?", i clicked the YES. but it does not do anything. it does not move forward. i will send the pdf file for this problem with listserver e-mail.			

History

#1 - 04/29/2009 01:23 PM - Sandeep Namilikonda

New error message added to identify this case.

#2 - 04/30/2009 12:33 PM - Sandeep Namilikonda

Revise the error message and detect the documents that the parser fails to identify any text content.

#3 - 05/02/2009 03:13 PM - Ryan McFall

I believe this has been fixed by checking for this condition when Next is pressed in the AssessmentFileSelection wizard page. I'd appreciate testing by others, however; I only tried it on the one document that Jay uploaded indicating that this was a problem. Documents that don't have this behavior parse correctly still.
