Kepler - Bug #4001

WRP - Save/Open KARs containing MOMLs and ROMLs

04/20/2009 04:56 PM - ben leinfelder

Description

In order to support report layouts with momls, we want to shift over to opening and saving not just the moml xml, but a KAR of the moml and the roml (and potentially other items - jars, binary libraries etc...)
Kepler should be able to open these KARs, as well as save them (by default).

History

#1 - 04/22/2009 02:03 PM - ben leinfelder

retarget to 2.0

#2 - 06/08/2009 11:26 AM - ben leinfelder

created ReportLayoutKAREntryHandler for writing ROML to the KAR when it's associated workflow is saved as a KAR.
similarly, opening a KAR that contains a workflow and a roml will show the workflow and the layout designer.
(horray!)
TODO: the workflow frame is untitled at this point.
TODO: the Report Designer might need a slight bit of finessing on the re-open side of things.

we can do this from within the GUI.
we can do this on the command-line (thanks chad!)
