#### Description

First noticed while parsing Fall05-Exam3.pdf;

Only the least significant digit of a question number being displayed.

Though this has not affected the parsing the question in an ascending order, the behavior is erroneous and NEW as I do not remember seeing such an occurrence.

#### History

##### #2 - 05/09/2009 10:35 PM - Sandeep Namilikonda

Incomplete logic ( missed question numbers followed by ") ) in \*Responseltem.java for pruning question numbers from the prompt resulted in this behavior, which is now fixed.
