

Metacat - Bug #4023

In sanparks skin, Geographic Description Required

04/23/2009 04:22 PM - Michael Daigle

Status:	New	Start date:	04/23/2009
Priority:	Normal	Due date:	
Assignee:	Michael Daigle	% Done:	0%
Category:	metacat	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	4023		

Description

In the sanparks skin, the geographic description is required. It should have an asterisk beside it, and register-dataset.cgi should catch if it is missing. Right now it gets through and the server throws an error.
