

## Metacat - Bug #4027

### JSESSIONID is not expiring, causing a security risk

<b>Description</b>			
The session ids used by Metacat are currently configured to timeout after 30,000 minutes, or ~3 weeks. This should probably be shortened to something more reasonable, as a security precaution. We already use cookies for the registry (perhaps elsewhere?) and may want to replace sessionid use purely with cookies.

isn't this just 6 hours?

```
session.timeoutMinutes=360
```
