

Kepler - Bug #4055

leftover cachedata files

05/04/2009 07:54 PM - Aaron Aaron

Status:	Resolved	Start date:	05/04/2009

Description			
It seems that after data has been searched there are some left over data files in the .kepler/cache/cachedata directory. My guess is that the extra serialized data files of the form urn.lsid.localhost.<somnumber>.0.0 should only appear in the .kepler/cache/objects directory. I'll look into this eventually unless someone beats me to it.
