

Kepler - Bug #4057

UserInteractiveShell message

05/08/2009 07:46 AM - Chris Weed

Status:	New	Start date:	05/08/2009
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	4057		
Description			
<p>The message in the UserInteractiveShell doesn't make sense, and gives a "null" at the beginning.</p> <p>Here is the current message: The outputs of the previous step. Please double click on your selections to be sent to the next step</p> <p>This seems to come from DoubleShellTextAreaPanel.</p> <p>I would expect it just to print my input message.</p>

I think you need to use an InitializableDelay.

UserInteractiveShell is based on InteractiveShell, for a sample use, see
ptolemy/actor/lib/python/demo/Ptolemnizer/Ptolemnizer.xml

A small test example would help here.
