I checked out chapter 1. We need to update section 1.4 with new future goals of kepler. I've asked Matt if he might have time to do that.

Getting Started Guide is complete.

This bug can be closed once Matt has edited the future goals section of chapter 1.

I updated the future goals section, corrected the contributors list, and made additional edits throughout. Chad -- I noted one place in the build instructions that you should check to be sure it is correct.
