

Kepler - Bug #4149

Workflow Run Manager - Export Runs feature

06/12/2009 11:22 AM - Derik Barseghian

Status:	Resolved	Start date:	06/12/2009
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	general	Estimated time:	0.00 hour
Target version:	2.0.0-alpha1	Spent time:	0.00 hour
Bugzilla-Id:	4149		
Description			
<p>WRM needs to be able to Export Runs from a gui context menu, or without a gui by just accepting a list of run Isids. This will build a kar containing all required items. Proposed KAR format is here: https://kepler-project.org/developers/teams/framework/proposed-changes-to-kar/?searchterm=kar</p> <p>but we've decided to punt on a lot of that for the sanparks target. No directory structure or module stuff for now, mainly just wf momls, run momls, romls and rios will go into the kar for now.</p>

perhaps split this bug into two - one for the very near 2a1 release and another for the full-REAP/2.0 version?

#2 - 06/15/2009 03:01 PM - Derik Barseghian

Exporting runs where reporting has been used is now broken. I don't know why yet. I get this error:

```
java.lang.NullPointerException
Failed to create kar file: Error building the KAR file: Cannot create KAR: null
at org.kepler.kar.handlers.ReportLayoutKAREntryHandler.getReportLayoutForWorkflowRun(ReportLayoutKAREntryHandler.java:311)
at org.kepler.kar.handlers.ReportLayoutKAREntryHandler.saveWorkflowRun(ReportLayoutKAREntryHandler.java:172)
at org.kepler.kar.handlers.ReportLayoutKAREntryHandler.save(ReportLayoutKAREntryHandler.java:146)
at org.kepler.kar.KARBuilder.generateKAR(KARBuilder.java:192)
at org.kepler.workflowrunmanager.gui.WorkflowRunManagerPanel.exportRunsToKAR(WorkflowRunManagerPanel.java:598)
```

The problem in comment [#2](#) was fixed some time ago.

#4 - 06/25/2009 01:19 PM - ben leinfelder

marking as fixed - for sanparks.
As we extend this feature for REAP, we can add a new bug.
