<b>Description</b>			
Create a scheduling web service that can schedule jobs for the kepler workflow engine.			
<b>Related issues:</b>			
Is duplicate of Metacat - Bug #3891: Create a scheduler service		<b>Resolved</b>	<b>03/16/2009</b>

### History

#### #1 - 06/16/2009 08:04 AM - Michael Daigle

Currently the scheduler is being created in metacat using Quartz scheduler libraries. The scheduler is a generic utility. Job classes are being created to run the workflow jobs.

A client interface will be created as the workflow run engine is formalized.
