Kepler - Bug #4172

Use DEV server for registry in the WRP suite

06/18/2009 01:26 PM - ben leinfelder

Target version:	2.0.0-alpha1		**Spent time:**	0.00 hour
Bugzilla-Id:	4172			

Description

For testing and training it will be very useful to have dev.nceas.ucsb.edu and kepler-dev.nceas.ucsb.edu set up as our servers in Kepler.
Kepler will query the registry for data/authentication/identificaiton services (that will point to dev sources) and we will use dev sinks for uploading KARs and such.

History

#1 - 06/18/2009 01:28 PM - ben leinfelder

The servers are set up and ready to go.
I'm currently updating the registry entries so that we point to the correct data sources for searching/downloading datasets

#2 - 06/18/2009 01:54 PM - ben leinfelder

http://dev.nceas.ucsb.edu/registry/services/RegistryService is now providing services that point to DEV (not production).

#3 - 06/19/2009 12:15 PM - ben leinfelder

WRP is pointing to dev for:
registry
authentication
repository
