Kepler - Bug #4184

EML 2 Dataset disregarding selectedEntity from XML

06/24/2009 06:12 PM - Oliver Soong

Status:	Resolved		**Start date:**	06/24/2009
Priority:	Normal		**Due date:**	
Assignee:	Jing Tao		**% Done:**	0%
Category:	data access		**Estimated time:**	0.00 hour
Target version:	Unspecified		**Spent time:**	0.00 hour
Bugzilla-Id:	4184			

Description

1. Drag an EML 2 Dataset actor onto the canvas and change the selectedEntity field from the initial value.
2. Save the workflow
3. Close and re-open the workflow
4. The selectedEntity value should be the initial value again.

History

#1 - 06/25/2009 02:14 PM - ben leinfelder

was "resetting" too many things in the actor when the recordID was updated (after changing latest version).
now only resetting the internal list of entities.
