

Kepler - Bug #4206

Report Designer - layout in left pane is scrunched up

06/30/2009 10:53 AM - Chad Berkley

Status:	Resolved	Start date:	06/30/2009
Priority:	Immediate	Due date:	
Assignee:	debi staggs	% Done:	0%
Category:	reporting	Estimated time:	0.00 hour
Target version:	2.0.0-alpha1	Spent time:	0.00 hour
Bugzilla-Id:	4206		
Description			
The panel on the left from which you drag components is too small initially. You have to drag to make it larger. It should always default to being large enough to see the components and to be able to drag them.			

History

#1 - 06/30/2009 10:54 AM - Chad Berkley

attaching screenshot of scrunched layout

#2 - 06/30/2009 04:04 PM - Chad Berkley

moved the split pane bar down so that the panel doesn't get crunched.

#3 - 03/27/2013 02:26 PM - Redmine Admin

Original Bugzilla ID was 4206
