

Kepler - Bug #4214

Report Designer - Dragging workflow components near report fields adds text to the fields

06/30/2009 03:05 PM - Chad Berkley

Status:	Resolved	Start date:	06/30/2009
Priority:	Immediate	Due date:	
Assignee:	debi staggs	% Done:	0%
Category:	reporting	Estimated time:	0.00 hour
Target version:	2.0.0-alpha1	Spent time:	0.00 hour
Bugzilla-Id:	4214		
Description			
If you drag an actor or ports of an actor to the canvas and accidentally drop them into a text field, text from the moml of the actor is deposited into the text field. This should not happen.

Closing this bug because it is default behavior for the text fields, not sure if there is anything we can do about it exactly.
