

Kepler - Bug #4235

Report Designer - Clear the values for the Image Static report item.

07/10/2009 12:47 PM - debi staggs

Status:	Resolved	Start date:	07/10/2009
Priority:	Normal	Due date:	
Assignee:	debi staggs	% Done:	0%

Target version:	2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	4235		
Description			
Right now, when a user swaps static images in the report, it doesn't clear the path value for the image file first, it just adds it to the list. So, when we render the report we end up with two images instead of only one.
