

Kepler - Bug #4236

Report Designer - Can't add two static image items and then change their images.

07/10/2009 12:58 PM - debi staggs

Status:	Resolved	Start date:	07/10/2009
Priority:	Immediate	Due date:	
Assignee:	debi staggs	% Done:	0%
Category:	reporting	Estimated time:	0.00 hour
Target version:	SanParksRelease	Spent time:	0.00 hour
Bugzilla-Id:	4236		
Description			
If you add two static image items all is well when you first assign the images to the items. You can also successfully render those two images. HOWEVER, if you try to swap the image of either item it produces an uncaught error and the report designer will freeze.
