Target version:	2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	4242		

Description

The cursors on the PC need some work as follows:

The drag cursor doesn't change to an arrow when you are over the scroll bars in the text fields, it remains a cross hair, making it feel strange when you are trying to scroll the text.

The cursor should change to a closed hand when you grab the drag and drop panels.

History

#1 - 09/01/2009 11:58 AM - debi staggs

This has been improved, but could still use some further consideration after the 2.0 release.
