

Kepler - Bug #4248

export dialogs should show default extension

07/14/2009 03:10 PM - Derik Barseghian

Status:	Resolved	Start date:	07/14/2009
Priority:	Normal	Due date:	
Assignee:	Derik Barseghian	% Done:	0%
Category:	interface	Estimated time:	0.00 hour
Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	4248		
Description			
Right now exporting an archive (or a run archive with the workflow-run-manager module) forces the kar extension onto the filename. It should be made apparent to the user this extension will be used, e.g. by showing it on the default filename.
