

Kepler - Bug #4298

The GUI should sensibly support internalization.

08/07/2009 03:22 PM - David Welker

Status:	New	Start date:	08/07/2009
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	core	Estimated time:	0.00 hour
Target version:	2.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	4298		
Description			
The text of all buttons should be either stored in resource bundles or there should be an easy mechanism to make configuration files that support multiple languages. Furthermore, the size of buttons and other items should sensibly be enlarged or shrunk to accommodate different languages. The layout manager should handle these issues sensibly.
