

Kepler - Bug #4305

Move actor classes into the actors module

08/11/2009 03:13 PM - Chad Berkley

Status:	Resolved	Start date:	08/11/2009
Priority:	Immediate	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	4305		
Description			
This will facilitate better modularization of kepler. Right now, the actors (and directors) are described in the actors module, but the implementing classes are stored in other modules.

Blocks Kepler - Bug #4246: Reorganize code in util, core and gui modules			In Progress 07/14/2009

History

#1 - 08/18/2009 10:13 AM - Chad Berkley

All actors in util, common and core have now been moved to the actors module. There are no director classes in kepler, they are all in ptll so there was nothing to be done wrt directors.
