Description

Here is the feature requested from Margaret O'Brien:

1. allow users to skip the search altogether and read a doc by its docid. The network search is a very slow step, presumably because morpho cannot tune its queries to the indexing of any specific metacat catalog. A user who knows the ID will be saved some frustration if s/he can type it into a box.

History

#1 - 06/30/2010 12:08 PM - ben leinfelder

added a menu option to enter the docid and select local/network

#2 - 06/30/2010 01:28 PM - ben leinfelder

added a language bundle key for this menu option, too.
