Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	4343		
Description			
The full screen button on the toolbar does nothing and should be removed before the 2.0 release.			
Bug 2369, comments 3-7, describe why it is disabled.			

History

#1 - 09/18/2009 11:34 AM - Chad Berkley

I removed the icon in the toolbar and the menu item in the view menu. This can easily be readded by modifying the uiMenuMappings_en.properties file and by removing the code in gui/src/org/kepler/module/util/Initialize.java in the updateFrameComponents() method.
