Kepler - Bug #4357

Workflow Run Manager does not mark last failed execution red

08/31/2009 02:41 PM - Oliver Soong

Status:	Resolved		**Start date:**	08/31/2009
Priority:	Normal		**Due date:**

Target version:	wrp-modules-2.0.0		**Spent time:**	0.00 hour
Bugzilla-Id:	4357			

Description

The workflow run manager is supposed to highlight failed executions in red. If I run a workflow and it fails, though, it is not highlighted. If I run it again, then the first failure is highlighted but not the second. If I run it again, then the first two are highlighted, but not the third. If I close and re-open Kepler, all failures are highlighted. It seems that highlighting is not updated after an execution.

History

#1 - 09/04/2009 12:34 PM - Derik Barseghian

should be fixed by r20571 for the most part.
Leaving open since might still be a problem when using PN - see bug dependency.

#2 - 04/19/2010 05:40 PM - Derik Barseghian

Can't get this to occur anymore, closing.
