

Kepler - Bug #4381

Open KAR: needs to work when opening from outside the /workflows directory

09/11/2009 10:31 AM - ben leinfelder

Status:	Resolved	Start date:	09/11/2009

Bugzilla-Id:	4381		
Description			
I'm noticing that the workflow is opened, but that the LSID is changed even if i do not make any changes to the workflow. then the report layout is orphaned because the workflow lsid that it points to is not actually being used (even though it should be). Long story short: the LSID should not change when opening from a KAR.
