

Kepler - Bug #4403

Make it more obvious as to where to drag the report items to.

Description			
We need to make it more obvious that report items should be dragged to the report designer. Some suggestions were: highlighting the area, and placing some text instructions like 'drag workflow and layout items here to create a report' into the general area.			

History

#1 - 10/06/2009 03:29 PM - debi staggs

I have added a background image to the report designer panel that shows an image of a piece of paper, with a folded corner. Text on the image reads "Drag items here to create a report".
