

Kepler - Bug #4411

Remove KAR module prefixes from kar files

09/24/2009 12:07 PM - Aaron Aaron

Status:	Resolved	Start date:	09/24/2009
Priority:	Normal	Due date:	
Assignee:	Aaron Aaron	% Done:	0%
Category:	core	Estimated time:	0.00 hour
Target version:	2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	4411		
Description			
We can remove the module prefix from the Makekar function since it is redundant now.			

History

#1 - 09/27/2009 10:23 PM - Aaron Aaron

I've modified MakeKars.java in the build-area so the module name does not appear in the kar name.

#2 - 09/27/2009 10:27 PM - Aaron Aaron

I've checked in the kepler-tasks.jar into module-manager/lib after building it using the "ant task" command. This removes the module name from the kar. Because MakeKars does not delete the kar files in the <module>/kar directory folks should do this manually using the "ant clean-kar" task. Closing this task.
