InfoVeg - Bug #4428

Constancy wrong for classified plots that have no species

09/30/2009 11:00 AM - Michael Lee

Status:	Resolved		**Start date:**	09/30/2009
Priority:	Normal		**Due date:**

Target version:	2009-June		**Spent time:**	0.00 hour
Bugzilla-Id:	4428			

Description

Plots with no species need to be ignored in constancy table generation. Can still be mapped though.

History

#1 - 10/06/2009 10:20 AM - Michael Lee

This is fixed in the code. I will test this with the particular CEGL Bob and Forbes found earlier.

#2 - 10/13/2009 07:13 PM - Michael Lee

This is now fixed:
http://cvs.bio.unc.edu/data/comm/CEGL003643.xml

compared to :
http://cvs.bio.unc.edu/data/comm3/CEGL003643.xml
(this second view may not last, so suffice it to say that it reports constancy at 12.5% for all species)
