<b>Bugzilla-Id:</b>	4440		
<b>Description</b>			
If I create a workflow and a report, but do not execute the workflow, then try to view it in the viewer, I get a null pointer exception. This does not occur if the workflow has been run.			

#### History

**#1 - 10/09/2009 09:43 AM - ben leinfelder**

added check for null last execution id - will not try to continue assembling/rendering report if no execution is found.

**#2 - 03/27/2013 02:26 PM - Redmine Admin**

Original Bugzilla ID was 4440
