Kepler - Bug #4464

Report Designer - selection pointer behavior

10/16/2009 11:23 AM - ben leinfelder

Status:	Resolved		Start date:	10/16/2009
Priority:	Normal		Due date:	
Assignee:	debi staggs		% Done:	0%
Category:	reporting		Estimated time:	0.00 hour
Target version:	wrp-modules-2.0.0		Spent time:	0.00 hour
Bugzilla-Id:	4464			

Description

-do not use cross hair pointer anywhere
-arrow turns to finger on hover over any item (anywhere on item except text areas)
-clicking anywhere (except text field) will select that report item
-click+drag will use existing arrow/arrow+ for "moving" report items

History

#1 - 10/19/2009 12:24 PM - debi staggs

- Crosshair point has been removed.
- Arrow turns to finger on hover, except for text areas.
- Clicking anywhere (or mousing over) on a panel selects that report item, and highlights that panel.
- Click + drag uses the existing arrow / arrow+ for 'moving' report items.
