

VegBank - Bug #4489

ensure VegBank documents plot type in the sense of 'classification' plots vs. 'occurrence' plots.

10/22/2009 12:15 PM - Michael Lee

Description

Akin to CVS Plot Levels. May be captured in PlotValidationLevel, but I'm not sure. If we need to add a field, this will have broader implications, including VegBranch. There is a separate issue about typical plots here that is confusing. A plot is NEVER typical or not, it's the classification of the plot that is typical for a particular community.

Source is section 2.6.3 number 15 of requirements document, page 66
