

## VegBank - Bug #4497

### Allow remote query from NVCRS and return useful data (not just view)

10/22/2009 12:16 PM - Michael Lee

<b>Status:</b>	New	<b>Start date:</b>	10/22/2009
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Michael Lee	<b>% Done:</b>	0%
<b>Category:</b>	query	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	NVCRequirements	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	4497		

#### Description

This is not too challenging, provided the format for returning data is specified. It should probably be VEGX format, which we need to implement anyway. Should have a limit on returned plots, but indicate that there are more plots available. Otherwise it will be too slow. This should then be cached on the NVCRS side so that if a user wants to download plot data, they can (p77,43). Limitations of plot use enforced (of course)!

Source is section 2.1.4 number 26 of requirements document, page 20
