Description

If I've added C:\Documents and Settings\soong\Desktop\kruger as a local repository, I can't add C:\Documents and Settings\soong\Desktop\kruger2. It complains that one is a subdirectory of the other, even though they are not.

it would be good to get this squared away for the wrp "release"

#2 - 11/04/2009 11:36 AM - Aaron Aaron

should be ok now
