

Morpho - Bug #4531

Data Package titles for SOME Data Packages not displayed

11/04/2009 01:36 PM - Rick Reeves

Status:	Resolved	Start date:	11/04/2009
Priority:	Immediate	Due date:	
Assignee:	Jing Tao	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	4531		
Description			
<p>The Morpho search results screen does not display the Title field for some data packages, even though the packages have valid titles entered (as validated by the Morpho EML editor).</p> <p>To replicate:</p> <ol style="list-style-type: none">1) Start a Morpho session2) Search for the string 'POD!', checking the All box.3) Search results should yield ~ 30 data packages; at the top of the results, records for Document IDs stoms.10.4, stoms.9.5, stoms.8.4, stoms.6.4 do not show the titles that are in the Metacat entries. Surname field also blank. <p>I discussed this with the author of the packages (Dave Stoms); he used Morpho 1.7 on Windows platform to create the packages, with no problems.</p> <p>Would be nice to have this fixed soon, as Marissa Bauer and I work to wrap up the POD data registration efforts.</p> <p>RR</p>			

History
