

Kepler - Bug #4554

Make layout panel scroll to where the user dropped the last report item.

11/16/2009 03:02 PM - debi staggs

Target version:	wrp-modules-2.0.0	Spent time:	0.00 hour
Bugzilla-Id:	4554		
Description			
Right now the layout panel scrolls to the top of the report items after each item is dropped. It would be better if it automatically scrolled to show the area where the last item was dropped.			

History

#1 - 11/20/2009 02:37 PM - debi staggs

The designer panel now scrolls down (or up) to where you dropped the last item if there are more than a few items in the report.
