Blocks Kepler - Bug #4559: local repositories not showing up in components tree			<b>Resolved</b> <b>11/19/2009</b>

### History

#### #1 - 11/19/2009 05:30 PM - Derik Barseghian

It's working for me at r21785. There's still the issue with non-workflow items within kars not showing up, but I'm seeing results for everything else atm. I restarted kepler a few times after doing different things and it's still working.

#### #2 - 11/19/2009 05:37 PM - Oliver Soong

Hm, something got bugged somewhere along the way, but I'm not sure exactly what. A clean-cache fixed it, but now I have the problem with report archives not showing up again. If I can figure out how to get it back, I'll add more detail.

#### #3 - 11/19/2009 05:45 PM - Oliver Soong

If you follow the instructions in comment 5 for bug 4559, you'll get a Kepler instance with the report archive and run archive both appearing in the components tree. This seems to cause search to fail.
