Category:	workflow run manager		**Estimated time:**	0.00 hour
Target version:	2.0.0		**Spent time:**	0.00 hour
Bugzilla-Id:	4580			

Description

Opening a past run where the workflow contained a PortParameter is giving a ptolemy.kernel.util.NameDuplicationException

This is an issue with Save Archive in vanilla too.

Drag a portparam onto canvas and Save Archive and you'll get an NDE.

#2 - 11/24/2009 06:53 PM - Derik Barseghian

If you remove the fix to bug#3593 (re-enable commented out section in addAttribute in ActorMetadata), you don't get the error for the test case in comment 2, but you lose any configured value, and the portparam arrow changes from white to black, and loses the dot. I need to brush up on how PortParameters are supposed to work to understand what the solution should be here...

in case it's related, for reference: ptolemy bug#311 (https://chess.eecs.berkeley.edu/bugzilla/show_bug.cgi?id=311)

#4 - 02/10/2010 01:18 PM - Derik Barseghian

Reassign to Dan, he's looking at this

#5 - 02/11/2010 01:49 PM - Daniel Crawl

fixed.
