

Morpho - Bug #459

extend Wizard actions of TextImport Wizard

04/06/2002 11:32 AM - Dan Higgins

Status:	Resolved	Start date:	04/06/2002
Priority:	Immediate	Due date:	
Assignee:	Dan Higgins	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	1.3	Spent time:	0.00 hour
Bugzilla-Id:	459		
Description			
Currently, TextImportWizard requires user to click on each column in a table and then enter metadata for the attribute represented by that column. Stepping through each column should be more automatic; i.e. perhaps each of the columns should be a separate 'step' in the wizard process.

History

#1 - 07/09/2002 11:13 AM - Matt Jones

This is an important thing to fix for the 1.2 release. It of course overlaps with the Jalama changes from bug 548, but lets assume for now that those changes won't be done till after version 1.2 is released.

#2 - 10/01/2002 10:27 AM - Dan Higgins

changing target milestone to 1.3 since this change would involve a fair amount of new code.

#3 - 12/04/2002 10:20 AM - Dan Higgins

TextImportWizard has been changed to now step through each of the columns in a table and collect metadata as part of the 'wizard' steps. A new visual interface has also been created.
