Target version:	2.X.Y		**Spent time:**	0.00 hour
Bugzilla-Id:	4604			

Description

Make certain interface enhancements to tagging that are deemed not important enough to block 2.0 or the wrp release with.

These include:

- Move the indicator for what is being tagged ('(workflow)' or '(run)') somewhere to make it more intuitive.

One idea that people liked:

Exchange this:

Tag: (run)

with:

Tag /run/: _

where // is italics.

- Move the combobox down to the toolbar below so the entire bottom toolbar is related to tagging. Ideally have the tags wrap rather than going off the screen.

- Fix the tag manager ontology concept editor getting out of sync with the actual data.

History

#1 - 02/04/2011 03:33 PM - Derik Barseghian

I think all these have been fixed except for tags wrapping.

#2 - 03/27/2013 02:27 PM - Redmine Admin
