

Metacat - Bug #4609

when viewed with saved credentials, KNB homepage shows blank entries

12/08/2009 04:23 PM - Oliver Soong

Status:	New	Start date:	12/08/2009

Description

I sign into the KNB, then close the window (but not the browser). The cookie persists, so when I go back to the KNB home page, it picks up the saved credentials from earlier. However, the login space shows no entries (blank username and password, -- choose one -- for the organization), so I can't be sure who I'm logged in as.

This also happens with dev.nceas.ucsb.edu.
