

Kepler - Bug #4638

ant clean-all no longer works

12/18/2009 11:33 AM - Oliver Soong

Status:	Resolved	Start date:	12/18/2009
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	build system	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	4638		
Description			
<p>This is with modules\build-area at r22254. ant clean-all and ant clean-cache both fail:</p> <p>build-area\build.xml:4: The following error occurred while executing this line: build-area\settings\taskdefs.xml:34: typedef class org.kepler.build.CleanDotKepler cannot be found</p> <p>I haven't figured out a workaround yet.</p>			

History

#1 - 12/18/2009 11:34 AM - Oliver Soong

It works at r22253.

#2 - 12/24/2009 11:13 AM - ben leinfelder

just tried it at r22278 and it works
