<b>Target version:</b>	2.0.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	4650		
<b>Description</b>			
After downloading a module, that module should be removed from the "available modules" list. If a user tries to download the same module twice, there is an NPE thrown.			

### History

#### #1 - 01/07/2010 06:58 PM - David Welker

Modules that are retrieved are not removed from the available modules pane. Instead, they are added to the "Downloaded Modules" list available in the "Downloaded Modules" tab.

I have modified the code to catch a class cast exception that occurred when retrieval occurred before all suites have been calculated.

After this change upon testing, there was NPE when a module was attempted to be retrieved twice.
