

## Kepler - Bug #4689

### Export run creates duplicate WorkflowRun files. Exporting it again gives none.

<b>Description</b>			
<p>Oliver and I both have this problem after the big KAR change. Aaron, I think you mentioned being aware of the duplication issue, take over this bug if you want it.</p> <p>If you export a run, you get two WorkflowRun files with identical contents: WorkflowRun.1.xml WorkflowRun1.1.xml</p> <p>If you export the run again, you get no WorkflowRun files.</p>
