

## Morpho - Bug #4692

### Morpho cannot open EML docs with <?xml-stylesheet> directive

<b>Description</b>			
SBC and MCR LTER sites are including <?xml-stylesheet> directives in their EML docs. This is valid XML, but Morpho was expecting the document root/schema def/doctype to be on the second line of the XML (not the 3rd or fourth or fifth...).			
With this error, the documents could not be opened in Morpho at all (symptom: <a href="http://bugzilla.ecoinformatics.org/show_bug.cgi?id=3482">http://bugzilla.ecoinformatics.org/show_bug.cgi?id=3482</a> )

recursively going through the XML to find the correct line - not assuming it is on the second.
