Kepler - Bug #4697

Semantic Annotation does not increment LSID revision

01/26/2010 05:30 PM - Derik Barseghian

Bugzilla-Id:	4697			

Description

If user gives a semantic annotation during Save Archive in ExportArchiveAction (see FIXME), I notice the LSID doesn't get bumped. Not sure if this causes any problems currently, but it seems bad.

History

#1 - 01/27/2010 11:49 AM - Derik Barseghian

This is more general. Semantically annotating a workflow does not increment the workflow's lsid revision.

#2 - 02/01/2010 06:24 PM - Derik Barseghian

Also, if you save a workflow, then semantically annotate it, then close the workflow, you're not prompted to save changes.

#3 - 02/05/2010 06:24 PM - Derik Barseghian

r22914 updates revision for semantic annotation done via Semantic Type Annotation menu. Need to do this in Tagging module now too.

#4 - 02/05/2010 06:51 PM - Derik Barseghian

works for workflow tagging with Tagging UI in r22915.
Still need to updateRevision for semantically annotating ports.

#5 - 02/09/2010 02:01 PM - Derik Barseghian

fixed in r23035

#6 - 03/27/2013 02:27 PM - Redmine Admin
